February 2003.

BUSHELL RAVEN, CHARTERED SURVEYORS

Since 1986 Bushell Raven has successfully completed a number of new building projects of varying size and complexity for Accuride International Ltd, acting as project manager, quantity surveyor and planning supervisory.

The most recent project was the extension and total refurbishment of our main office facilities with a value in excess of £1.5M. We were in continued occupation of the building throughout the works. Bushell Raven's thoroughness, attention to detail and straightforward approach ensured that disruption was kept to a minimum, and was instrumental in the timely completion of a high quality project at budgeted cost.

Mark Brian
