Dear Gary

It is with much pleasure that I write to confirm **DEEJAK** have successfully used Bushell Raven to supplement our estimating department for a number of years. They always quote fixed fees, they deliver a quality product and have never failed to meet an agreed deadline. The peace of mind, being able to call upon a reliable and professional service in times of fluctuating workloads, is of the utmost importance to us.

I would not hesitate in recommending them to potential clients.

Yours sincerely
