Dear Jon

On behalf of Oastlodge and Hallway, I would like to express my thanks to you and Gary for the professional way that you have dealt with the project management and cost control of our retail units in Market Harborough.

The site, being a redundant petrol station, had many issues associated with it, not least the underground contamination, the presence of asbestos, and the ground engineering limitations.

The guidance you gave us during the remediation stage and construction phase was much appreciated and we now have a fully warranted and occupied retail site to be proud of. In addition your detailed and personal approach on what was a very complicated site certainly taught me a great deal and helped to put my mind at ease – if only planning was so straightforward!

I look forward to working with you again on future projects.

Yours sincerely

Tom Beynon
