Dear Jon

I am writing to express my thanks to Bushell Raven on behalf of Welford Youth and Community Centre for your company's assistance with the initial costing of the project to enable us to obtain funding to build the centre and for their handling of both the pre and post contract financial management of the building of new Youth and Community Centre.

At all times we found Bushell Raven to be reliable, personable and professional in their approach and we are very happy with the finished building and with the service we received from your company. I would have no reservations in recommending your company services to others in the future.

On behalf of the committee please could you pass on our thanks to other members in your organisation who were involved with our project.

Kind Regards

Janet Roberts
WYCC Treasurer.
